

For You and Your Patient

The Art of Medical Design

FIMET

We know the art of medical design

Our goal at Fimet is to make your work easier. We work together with dental professionals from all over the world and bring those ideas and suggestions into our designs. We are a partner that reacts to your needs quickly and flexibly.

We are a Finnish based company but through our global distributor partners, we operate in more than 50 countries. Our development, design and manufacturing are based in Finland.

We use only the highest quality materials to ensure state-of-the-art design and experience. You can also give the Fimet dental system a personal touch with a wide selection of colors and patterns to choose from.

Custom Made Dental Treatment Systems for Dentists and Oral Health Care Specialists

Improving Your Patient Care Experience with a Smile

Why dental professionals choose FIMET over other brands

- Features and functions custom made to suit your requirements
- Quality made in Finland
- Easy to start using and affordable to maintain
- Provides maximum comfort for the patients during treatment
- Happy healthy patients – repeated visits
- Helps dental professionals improve clinical outcomes and enhance productivity
- Cares for your clinic image

F1 Traditional

The Fimet F1 dental treatment system can be equipped also with hanging instrument hoses for those users who prefer this way of workflow.

Simply elegant

F1's elegant and stylish design includes many small details that have a big impact on the way you work.

Safe choice

Keep your patients safe. Smooth surfaces and upholsteries make both cleaning and disinfection easy.

Designed to work

Adjust the chair position and instrument speed ranges so that the chair fits your way of working.

Compact

Small base means more working space for both the dentist and assistant. Everything is within easy reach.

F1 Continental

The Fimet F1 dental treatment system combines innovative solutions with elegant design. The treatment systems are ergonomic, high-quality units that can be customized for each user's needs and preferences.

Simply elegant

F1's elegant and stylish design includes many small details that have a big impact on the way you work.

Safe choice

Keep your patients safe. Smooth surfaces and upholsteries make both cleaning and disinfection easy.

Designed to work

Adjust the chair position and instrument speed ranges so that the chair fits your way of working.

Compact

Small base means more working space for both the dentist and assistant. Everything is within easy reach.

Our mission is to design and produce affordable, high-quality dental treatment systems to meet your needs and expectations.

For You and Your patient

The Fimet F1’s modularity eases the workflow for the dentist and assistant. It also makes the treatment more pleasant for the patient. Control the system with a wireless foot control, joystick or user panel.

Height can be adjusted between 40 to 91 cm

Supports camera and display integration

Arm rests rotate 90° sideways and are removable

Small base that fits even the smallest spaces

Space for 5 instruments on the bridge

Adjustable chair position and instrument speed

Wireless foot control

The multi-functional and wireless foot control (horizontal or vertical) allows you to control instruments, the patient chair and other functions such as operating light and chip-blower.

You will thus be able to focus on your work and minimize cross-contamination as you do not need to touch the instrument console during normal treatments.

First-class features

Only well-known quality instruments are used in the F1 treatment systems.

The flexible suction arm is equipped with high and low volume suction tubings plus further options.

F1 has an integrated flushing system for all instruments using water.

The arm rests can be turned away and even removed to allow easy access.

The water unit can be equipped either with valves for wet suction system or a separator intended for dry suction system.

The wide movement range of the F1 patient chair makes working even in upright position possible.

Stools

The F1 stools can be delivered in the same upholstery colors as the F1 patient chair. Three stool options are available.

F1 Dental stool

F1 Classic stool

F1 Ponychair saddle stool

Colors

Easy-to-clean and comfortable upholsteries are available in many fashionable colors.

F1 upholstery colors
• synthetic leather, PVC

The specifications and colors in this leaflet may vary from the actual product and are subject to change without prior notice.
